Discussion

- what are good ways to evaluate / underpin relevance, significance, impact and others?
- all of a sudden, 20 PhD students ask you: what is a hot topic in that field?
 - hot topics?
 - DSLs, Meta-Models, MDSD, ...
 - domains?
 - already covered and solved
 - low hanging fruits?
 - tried to address but not yet solved in a satisfying way
 - badly needed but not yet addressed
 - research roadmap?
 - milestones, benefits, priorities?
